

Sarah Phillips

Energy Advocate • Petroleum & Natural Gas Engineer • Public Speaker

Canonsburg, PA 15301 • (304) 282-8108 • Sharbert312@gmail.com

Profile

Nationally recognized energy advocate and petroleum engineer who uses personal storytelling and passion to connect the public with the vital role of American energy. Frequent national media guest (Fox News/Fox Business, RNC stage), multiple-time guest at the White House, and featured speaker at high-level industry and policy forums. She was the first speaker at the Butler rally during the assassination attempt, representing American energy workers on one of the most visible national stages. Known for blending industry experience with heart-driven advocacy, shaping the narrative on energy security, human flourishing, and the fight against global energy poverty.

Media Hits & Press

National Television

Fox & Friends (Fox News) – Guest segment: 'Kamala Harris called out for flip-flopping on fracking ban'

Fox & Friends (Fox News) – Guest segment on energy poverty and her speech at the RNC

Fox Business / Fox News (Guest Commentator):

- Biden, Harris declared war on oil and gas on day one — featured on Stuart Varney's show (Fox Business)
- Petroleum engineer blasts Biden's war on energy: 'Such a desperate need for oil and gas' — featured on Maria Bartiromo's show (Fox Business)

Select Accomplishments

Guest at the White House on multiple occasions, including Women’s History Month and Liberation Day.

Advocacy content has driven millions of impressions across LinkedIn, YouTube, and Instagram, advancing industry-wide narrative change.

Recognized as one of the most visible oil & gas advocates in the Appalachian Basin and nationally.

Successfully blends industry experience with heart-driven advocacy, making hydrocarbons relatable to policymakers, media, and the public.

Persistent focus on energy poverty—aligning operators, policymakers, and nonprofits to expand access and improve human flourishing.

Industry Background

Nearly a decade of hands-on experience in the global energy sector, spanning engineering and business development roles with Schlumberger, Knight Energy Services, Tally Energy Services, and Gladiator Energy Services.

Work has included artificial lift, completions, coil tubing, and production optimization across the Appalachian Basin, North Dakota, and the Middle East.

Time spent in Abu Dhabi with Schlumberger provided international training and field perspective, further broadening her understanding of energy’s global impact.

This foundation gives her authentic industry credibility and a unique ability to connect operations with advocacy.

Education

West Virginia University — Morgantown, WV

- B.S., Petroleum & Natural Gas Engineering, GPA 3.22 (2012–2016)
- B.S., Business Administration (Management, HR focus), GPA 3.20 (2005–2009)

Certifications & Technical Training

Gas Lift Analysis & Design Seminar — Tally Energy Services | Houston, TX | Oct 25–26, 2023

Plunger Lift Learning Course (2-Day) — ShaleTec | Wheeling, WV | Sep 21–22, 2023

Application Engineering 1 & 2 — Schlumberger | Abu Dhabi, UAE | Mar 1–28, 2019

Variable Speed Drive Course — Schlumberger | Abu Dhabi, UAE | Aug 12–30, 2018

ESP Field Engineering Course — Schlumberger | Abu Dhabi, UAE | Sep 1–28, 2016

Professional Affiliations

Board Member, American Oil & Gas Association

PR Chair, Women's Energy Network

Membership Chair, Appalachian Basin Gas & Pipeline Association

Member, SPE and AADE
